

## PROFESSIONAL SUMMARY

- Computer Science Engineering student with hands-on experience in Java, Python, React, and Full Stack Web Development. Built real-world applications including E-Commerce Web Application, Library Management System, and Weather Forecasting System using modern frameworks and REST APIs. Completed virtual internships in Cybersecurity, Salesforce Development, and Java Full Stack, gaining exposure to secure systems, backend development, and cloud-based applications. Strong understanding of Data Structures, OOP, DBMS, and Web Technologies, with excellent communication and teamwork skills, seeking an entry-level software engineering role.

## TECHNICAL SKILLS

- **Languages** ; Java SE ,css ,html, JS
- **Database**: MySql
- **Tools** : Visual Studio Code, Github , IntelliJ
- **Areas of Interest**: Data Structure and Algorithms , Object Oriented Programming , Operating System , Database Management Systems and Web Development.
- **Soft Skills**: rapport Building , Strong Stakeholder management , People Management ,Excellent Communication

## PROJECTS

### 1. E-Commerce Web Application]

- Technologies: HTML, CSS, JavaScript, React, Node.js
- Developed a fully-functional e-commerce website that allows users to browse products, add to cart, and checkout.
- Integrated payment gateway using Stripe API for secure transactions.
- Implemented user authentication and authorization using JWT and Express.js.

### 2. Library Management System

- Technologies: Java, MySQL
- Created a library management system with a user-friendly interface to manage books, users, and transactions.
- Used MySQL for backend database to store book and user information.
- Implemented features like book search, issue, return, and fines calculation.

### 3. Weather Forecasting Systems

- Technologies: Python, Flask, OpenWeatherMap API
- Developed a web-based application to forecast weather using OpenWeatherMap API.
- Implemented a Flask backend for handling user requests and providing weather data in real-time.
- Designed a simple UI using HTML/CSS for displaying weather information.

## INTERNSHIP

### Cisco AICTE Virtual Internship Program – Cybersecurity

June 2025 – August 2025

- Performed cyber threat detection, analysis, and mitigation using security tools.
- Applied CIA Triad, firewalls, IDS/IPS, encryption, and access control concepts.

### Salesforce Developer – Agentblazer Champion Program (Virtual Internship)

May 2025 – July 2025

- Developed Salesforce applications using Apex and Lightning Web Components (LWC).
- Earned Apex Specialist, LWC Basics Superbadges, and the Agentblazer Champion Badge.
- Delivered an end-to-end capstone project.

### Digital Skills Readiness Program – Java Full Stack

#### TalentNext (Wipro) |

October 2025

- Certified Java Full Stack Developer Trainee under Wipro TalentNext.
- Worked with Core Java, OOP, and backend development fundamentals.

---

## ADDITIONAL INFORMATION

- **Technical Skills:** Project Management, Structural Analysis, Robotics and Automation,
  - **Languages:** English, Hindi , Marathi
  - **Certifications:** Salesforce Developer With Agentblazer Champion Program ,C++ Througe C : Sharma Computer Academy (SCA) , Web Development : Sharma Computer Academy (SCA)
  - **Awards/Activities:** 9-days Web Development Bootcamp by GOOGLE DSC with Microsoft LSA
- 

## EDUCATION

<b>Disha english medium school</b> Secondary School Certificate :- 75.20%	<b>June 2017-Aug 2020</b>
<b>The new high school and junior college,</b> Higher Secondary Certificate :- 71.33%	<b>May 2021 - Sep 2022</b>
<b>Lakshmi Narain College of Technology Excellence</b> <u>Bachelor of Technology</u> :- in computer science and engineering :- 6.5 (CGPA)	<b>SEP 2022 -JUNE 2026</b>
